HD700, HD1300, HD1400 Training Instructions

This training checklist is intended to ensure that you, the customer, have been sufficiently instructed on the proper usage, maintenance, and repair (where applicable) of your new Corghi tire changer. If you are unsatisfied with the training you received, please contact Corghi USA and ask to speak to the Sales Manager in charge of your region.

Thank you for choosing Corghi!

Model: _____

Serial Number: _____

**This form must be filled out completely with signatures and returned to Corghi USA
A copy will be mailed to the customer**

Please check the appropriate box for each section that you were instructed on.

Standard Procedure:	Initial	Comments:
Check for correct power requirements (208V 3 ph, voltage +/- 5% - 10%)		
Identification of main operating components (Bead breaker arm, jaws, carriage, control box)		
Controls on hand controller, joystick, rocker switches, 2 speed rotation switch (AG52 and HD1200 only) rabbit mode (HD1200 only) NOTE: The red and black rotation direction arrows match the arrows indicated on the machine		
Proper use of the finger and bead breaker disc and including when the finger should be in the folded position		
Bead breaker sliding positions to accommodate larger wheels		
Optional accessories – Aluminum jaw adapters, aluminum protection rings, aluminum bead clamp, skidder clamp, jaw extensions (AG52 and HD1200 only)		
Importance of tire lube		
Importance of keeping tire in the drop-center of the rim, in some cases special tools may be needed such as hydraulic bead breaker tools		
Explained machine maintenance including machine lubrication points, fuse location & machine overload switches. The customer should always refer to the maintenance section of the machines operators' manual and the general maintenance section of the training form		
Where you informed of:

The warranty period for this unit along with a printed copy?		

General Machine Maintenance for Heavy Duty Tire Changers

Always refer to your operator's manual or contact Corghi USA service department for any technical questions.

General maintenance should be performed at least monthly or more frequently based on usage.

- Under NO circumstance is your machine to be pressure washed. To clean your machine, only use mild detergents sprayed directly onto a rag.
- Use WD40 or equivalent (DO NOT use white lithium grease) to lube the following: bead breaker guide rail and cylinder shaft
- Grease the following using an all purpose shop grease: Carriage pivot pin, slide blocks, jaw pivots, bead breaker disk, finger pivot points, bead breaker lock hooks, spindle (AG52 and HD1200 only)
- Inspect hydraulic lines and gauges for kinks and cracks
- Check hydraulic fluid level, top off with 32 wt non-foaming

General Terms, Disclaimer & Limitation on Liability

Corghi USA expressly warrants its products will be free from defects in material and/or workmanship for the time period specified. Corghi USA must be informed in writing within 7 days after discovery of a defect. Corghi USA reserves the right to repair or replace a product at our discretion. Consumable products and accessories such as but not limited to; plastic protection parts, bead breaker pads, inflation hoses, and rollers, are not covered under this warranty. This warranty does not cover any damage resulting from abuse or failure to perform any necessary maintenance (i.e. damage due to or resulting from, faulty installation, neglect, misuse, improper electrical connections or electrical surges, problems resulting from excessive water, contaminated air system, or pollutant of any nature, fire or freight damage).

Corghi USA's agreement to repair machines is expressly in lieu of all other warranties, express, implies or statutory, including any warranties for merchantability and fitness for a particular purpose. Corghi USA maximum liability shall be limited to the cost of the machine. In no event shall Corghi USA be responsible for owner's lost profits, goodwill or other incidental or consequential damages. Corghi USA is not responsible for equipment or accessories damaged in shipment. Freight claims are to be made directly with the carrier. We will be more than happy to assist you with any questions regarding filing claims.

HD700, AG52, HD1200 2 years parts and 1 year labor

NOTE: Rubber Pads, air lines, gauges, mount/demount heads, and swabs - 90 day warranty
